2019 PRESTON MOTOR CYCLE CLUB – BRACKET RACE DAYS

BROADFORD

TIMING BULLETIN

Timing transponder collection and deposits

Transponders should be available for collection from the pit office, on Sunday morning from 7:30am. A $50 refundable security deposit is required, which can be left in cash or by recording credit card details.

Timing transponder mounting and second bikes

It is the competitor's responsibility to ensure that timing transponders are properly mounted for all sessions (including practices and warm-ups). Competitors found not to have transponders properly mounted, may be black-flagged from the session or have times excluded after the end of the session. Computime's back-up procedures ensure that accurate times are recorded if any competitor is found to have a faulty timing transponder.

Competitors with two machines have the option of renting an additional timing transponder for a $15 rental cost plus usual security deposit. Alternatively, additional mounting brackets can be used to enable the transponder to be easily moved between bikes. If you choose to simply swap the transponder between bikes, and forget to do this, you WILL be black-flagged.

Transponder mounting brackets

Mounting brackets WILL NOT be provided for rental with transponders. Competitors who do not have their own already can buy them when collecting transponders for **$10 each** (GST incl). They can then retain the bracket on their bike for future events.

Internet based timing

Computime will also be able to bring you live timing on the internet. Follow the links from **www.computime.com.au**.

Services unavailable

This venue does not have a hard wired or TV transponder distribution system. Live timing information available from Computime's website only.

NO intermediate sector timing will be available this weekend. Full lap timing only.

Computime's local wireless network enabling live timing to be accessed from laptop computers WITHOUT internet connections, WILL NOT be set-up this weekend. If you have an internet connection, refer "LIVE Internet based timing" above.
